GRAMMAR

A little/ a few/ little/ few.

"A little", "a few", "little", "few" are quantifiers.

A little and a few

- We use "a little" with singular non-countable nouns and it means a small amount.
Example: I drank a little champagne.
- We use "a few" with plural countable nouns to indicate not many people, animals or things.
Example: I have a few friends in Berlin.

Little and few

- We use "little" with non-countable nouns to mean a small amount, but this time the amount is almost nothing.
Example: I have little money left in my account.
- We use "few" with plural countable nouns to mean almost nobody or nothing.
Example: Do you have any stamps? Yes, but only few.

If the noun is something that we want (like money or friends) then using "little" or "few" means that we don't have enough. In fact, "little" and "few" have negative meanings, we use them to mean "not as much as may be expected or wished for".
