Ingles III

PASIÓN POR EDUCAR

Nombre del trabajo:

Ensayo

Ensayo del tema:

“dar y pedir direcciones”

Introduction:

In this work, it is very important since it is very helpful to know how to give or ask for directions as they can help us in our life, since we will need it in life, that is why we will see the vocabulary and structures for readers understands more of this topic. as well as how important it is to start a conversation, to know the directions.

Developing:

giving and asking for directions, as we know is important since when we are in a country that we do not know, it is most likely that at some point in our trip, even if we have a map, we will get lost, also it is important to know how Ask for directions in English, as it will be easier to reach your destination faster than trying to understand a map.

In the same way it may happen that we are in a city that we know perfectly, but when someone comes to ask for directions in English, we do not know how to communicate in this language, and our help is useless if we do not know how to express ourselves. as we should already know is to know a little basic vocabulary, to be able to ask for directions, understand them and give them, it is for them that we will leave some examples that are:

- Go along the street until you reach the traffic lights
- You will see construction on the road
- The museum is about two blocks from here
- I prefer going to the airport on the highway because it's faster

that and among other words to give directions as well as these other examples that are:

- My office building is just across from the mall

- Continue straight ahead for about a mile
- Is there any shopping mall near our hotel?
- There is a hospital and a school next to it

It is also important to know how to ask for directions in English, that is why it is important to keep in mind are manners. Remember that on many occasions those who can help you will be unknown and if you want to receive a friendly explanation, starting the conversation with a greeting is almost mandatory. that is why we can use some phrases that we already know, and that are easy since we can use it in your daily life and they are:

- Excuse me
- Hello
- Good morning/ afternoon/ night

it is because already knowing that, we can make the complete sentence to ask for an address which are:

- Excuse me, could you help me?
- Hello! May I ask for some help?

just as we can also use these

ould you tell me how to get to.

Do you know where (the place) is?

Can you show me on the map?

Where can I find the..?

as well as giving directions there are these:

Go past. Go through. You can say this so that the person continues until he passes some reference point that you give him. For example: You need to go past the library to get to the theater

Go along, Continuar. Por ejemplo: Go along the street and you will see the museum.

Go straight, Seguir derecho. Por ejemplo: Go straight until you get to the bus stop.

Go through, Atravesar. Esto se suele decir si la persona debe atravesar un túnel o la ciudad. Por ejemplo: The airport is very far, you need to go through the city to get there

Go out of, Salir. Por ejemplo: Take the next exit to go out of the highway

those are basically what we need to know to give and ask for directions

conclusion:

the work was done with echo in order to know how to give and ask for directions, with what I have seen previously I hope it is very understandable so that you can understand what the work is about
