# Medical instruments

A hospital has different areas, each of which helps in the treatment of diseases in different parts of the body, such as Gynecology, Obstetrics, Pediatrics, just to mention a few of them.

Each area uses different special instruments to perform its tasks, here you can see some of these tools and their uses that you can find in a hospital.

**ECG** is an instrument used to monitor the heart.

**Microscope** is for examining tissues, samples, etc, very closely.

**Centrifuge** is for separating substances by spinning them.

**Pediatric spoon** is used to weigh substances in a laboratory.

Exercise machine is usually used for medical treatments to get strength again after an injury.

Let's talk about **X-ray machine** which are used to fix bones when they are broken.

In Dermatology area, doctors use a **Dermabrader** to remove damaged skin.

When a person has kidney problems a **Dialysis machine** helps to clean blood.

If you have problems with your nerves **Neurological pinwheel** tests for sensations in them.

In Pediatrics area **Pediatric spoon** is used to specially for children to grip.

**Scalpel** is mostly used by surgeons to perform operations, it can cut your skin and is very dangerous if you play it.

When a radiologist needs to watch into your body, specially your bones he uses a **X-ray machine** to examine them.

Neurological pinwheel

Scalpel

Microscope

Centrifuge

Pediatric spoon

X-ray machine

Bone plate

Dermabrader

Exercise machine

ECG

Dialysis machine

Scale

And now it's your turn, write about 5 instruments

1.- stethoscope is used for auscultation or to hear internal body sounds

2.- Syringes are used to introduce small amounts of gases or liquids into inaccessible areas or to take samples of the components from these places.

3.- baumanometer, an instrument that measures the force exerted by the blood on the walls of the arteries

4.- thermometer is an instrument that allows to measure the temperature

5.- oximeter A small fingertip device can give you valuable health information
