PASIÓN POR EDUCAR

Frontera Comalapa, Chiapas 3 de junio de 2020

My nursing student profile.

Brisaida is twenty years old. Lives in Amatenango de la Frontera. Study in the Comalapa.

She is a university student.

She is studying to be a nurse because she like helping sick people.

She likes to read books, now she is reading a medical book.

Brisaida is working in a pharmacy because she likes to pay her tuition.

She likes to practice with her classmates and friends but she is not liking that they practice with

her.

His biggets dream is to continue studying his specialty.

She studies Saturdays and works from Sunday to Friday. In free time she plays soccer and reads books.

She is thinking of having her own pharmacy because she would like to work in it.

She is counting down the days to finish her college career and become a professional nurse.

She doesn't like to use her phone during class time.

What she is waiting for is to go to hospitals to do her practices.
