## **RAUL THE PEDIATRICIAN**

Raul **lives** in Tuxtla Gutierrez, Chiapas. He **has** two brothers, he is a pediatrician and he **likes** his job, he **cures** sick children and **maintains** the attention on the control of the growth and development of small. He **Works** all week, he only **has** half a day on Sunday to play with his two children and live together with his wife.

Raul **has** his own office where he **works** in the afternoon, in the morning he **works** in the general hospital where he **cares** for all the sick children who come, he also **performs** preventive medicine, detecting problems in the child and **applies** vaccines for the development of infections.

For Raul the work is easy because he **likes**. Raul **does not eat** on time sometimes because he **has** a lot of work, he **does not have** a car and **has** to walk or take public transportation. Sometimes he **does not come** home later and **finds** his family asleep.

To Raul **does not like** to see sad children and his happiness is to see them smile, is the most beautiful, he **loves** the kids and just is a pediatrician for them, the kids.
