THE NEIGHBORHOOD OF THE MOUTH

which is located in the southeast limit of the city. I would like to visit La Boca because it is a neighborhood that transmits art, soccer and has beautiful infrastructures where you can spend a beautiful moment accompanied by friends and family, the neighborhood of La Boca is a well-known place because there is the stadium of the team of Boca Juniors soccer which is called "the bombonera"

The mouth is also known for its artists, one of them is Benito Quinquela Martín, who was a painter. I would like to know the paintings that this artist made. Also, I would like to know the workshop where this artist made his works of art.

but the place that I would love to visit is the Nicolás Avellaneda bridge which is a perfect place to have a good time with friends or with a couple because it is a beautiful sight.

In the neighborhood of La Boca I would like to go to the restaurant called "el obrero" where I would like to eat "the Spanish omelette", I would also like to meet and go to the Quique roundabout, it is named after the Requielme footballer, where I would like to eat the choripán. to later enter the bombonera stadium where I would like to shout Boca Juniors' goals, although Boca is a very dangerous place for young people who are entangled in drugs and that is an unsafe neighborhood. but outside of that the mouth is a place where you can have a good time visiting "La bombonera", the bridge of the mouth and its restaurants with delicious dishes, the mouth is an incredible place where I would also like to meet Thunder a singer and Freestyler. Would you like to know the neighborhood of the mouth? because I would love it.
