These are just some of the many tourist places that London has to visit

From my perspective I want to know London because it is there where the thematic park of the Harry Potter saga is located and as I am a fan of that movie I would like to know so much the whole country, all the tourist centers it has, but especially I would like to know the Harry Potter theme park. In the Harry Potter theme park we can find everything that is observed in the saga, as for example the school that appears in the movie the Hogwarts school of magic and sorcery, we can also find The great dining room of Hogwarts, Hagrid's cabin, Dumbledore's office, the Gryffindor common room or Diagon Alley, these are some of the scenarios that can be observed within the park. For example, in the dining room there are figures in the uniforms of the four Hogwarts houses -Gryffindor, Hufflepuff, Ravenclaw and Slytherin-, in the director's office there are a multitude of books -many of them are old leather-bound telephone directories. And finally inside the park you can see the old British steam engine No. 5972 "Olton Hall" which, with its 78 years, has been the Hogwarts Express in all the films of the saga.

It is for this reason that I want to visit London so I can see the theme park of the saga.
