Nombre del profesor: Jezabel Ivonne Silvestre Montejo.

Nombre del trabajo: Presentación

Materia: Inglés

Grado: Primer Cuatrimestre.

Grupo: "B"

To: English teacher Ivonne.

Hello teacher, it is a pleasure to greet you, I am one of your students who study at UDS university, my name is Alejandra Ortiz Roblero, but I like to be called Ale, I am 20 years old, I live in San Jose Chicharras, but I study in Comalapa, to get to Comalapa I travel 40 minutes.

I started studying at the UPN university when I was 18 as a teacher, but I didn't like it, then I went to work in Mexicali and got to know many beautiful places and many different people.

My family is made up of three people, my sister Karla, my father Alexander and my mother Loida, they are very important to me. My sister is very pretty, she is a teacher and is very intelligent, my father is different, he is important too.

My mother was very pretty, she was beautiful...

She died at Christmas last year.

Before she died my mother told me that I should study nursing, and that is why I am at this university

I think that being a nurse is beautiful and I want to fall in love with my career, I like to help people, be kind, loving and I like to put an interest in what I do.

I find the online classes interesting because it is an autonomous learning of the students. Personally really like going out for a walk, meeting new friends, always doing different things so that the difference of who I am is noticed, I also really like listening to different types of music, I like to dance, I love cats and like a lot the color blue.

I hope teacher and this presentation is to your liking. I love her so much.

From your student: Alejandra Ortiz Roblero.
