For me the english language is very important because we can comunicate with other people in a correct way, for example if we ar treating a patient who speaks in english and we cannont, because we will not be able to attend to him as it should and it would not be good.

English helps us to see the world in a different way, it will give us the opportunity to interac with other people who do not speak our language and we will also be able to know their culture... by studying english we can teach our children and support them in their task. We will have a lot of tranquility when we travel where they speak english because we will know what they are saying to us and we will know how to respond to them, for that reason it is vitally important for me to know how to speak english.
