# The importance of english in the race

## **Introduccion**

Mastering english today is so important since it is an international language par excellence and has various uses inside and outside of our country, it is essential since it opens the doors to a greater number of possibilities.

## **Developing**

In the nursing carrer I considered that is necessary to learn the basics of english, since many times we can run into people from abroad and if we do not understan anything, we will not be able to comunicate it is also important to learn english because it gives us a greater oportunity, to have advantages if one day we go to another country for work reasons or some need. Many times in the nursing área materials come from abroad, they bring instructions and names of the material in inglish, if we do not know any english it will be diffiult for us to interpret and even communicate, so there are more reasons to apply english in the nursing career.

## **Conclusión**

Remember that speaking another language opens our minds and the world, there fore we must make an effort to practice and learn english.
