**PRESENTA EL ALUMNO:**

**(Martha María Juárez Pérez)**

**GRUPO, SEMESTRE y MODALIDAD:**

**(1er cuatrimestre grupo: "D" semiescolarizad)**

**Lugar: Pichucalco Chiapas**

**Fecha: 14 de noviembre de 20202**

My name is Martha María Juárez Pérez I am 33 years old, I work in a clinical analysis laboratory as a phlebotomist, I do not practice any sport but I would like to learn basketball, my favorite hobby is listening to music with my princesses, my two young daughters, I chose a nursing career because I like it a lot, because it is one of those that shows our most human side and allows us to serve people who need it, I feel that it is a very extraordinary task and that studying it requires not only a desire but also a vocation to serve, by I also liked this career because so I can give my princesses a better study and quality of life, thus teaching them that people should be treated with kindness and respect, regardless of their economic, physical or social state, at the end of the career I I would like to serve in more vulnerable places because I know that in those places there is little health service to help people, this would also help me to know, develop me and integrate with society and the situation that is happening, then it would be a way to get to do what one day wanted.
