

The image shows a Microsoft Excel spreadsheet with the following data:

	A	B	C	D	E	F	G	
1								
2		sumar numeros						
3		Dato 1	1500	1000	1300	1700		
4		Dato 2	2000	1200	1400	2500		
5		Dato 3	1800	4000	1800	1750		
6								
7		Resultado	5300	6200	4500	5950		
8								
9								
10		multiplicar i dividir						
11		Dato 1	200	10	8	7		
12		Dato 2	400	15	5	12		
13		Dato 3	150	12	10	15		
14								
15		multiplicar	1200000	1800	400	1260		
16		dividir	=C11/(C12-C13					
17								
18								
19								
20								
21								
22								

The formula bar at the top shows:  $=C11/(C12-C13$
