EXTREME LIVING

Welcome to the coldest, highest, and hottest places in the world!

the hottest country in the world.

How do people live in Mali, West Africa, where the temperature is often 50°? John Baxter, a BBC journalist in Mali, says, "People get up very early and they don't move very much in the afternoon. Surprisingly, they wear a lot of clothes (usually cotton) as this helps them not to get dehydrated. Houses are very hot and don't have air conditioning- the best place to sleep is on the roof!"

the highest capital city in the world.

La Paz in Bolivia is 4,090 metres above sea level. It can be difficult to breath because there isn't much oxygen. Liz Tremlett, a travel agent who lives there says, "When people arrive at El Alto airport we sometimes need to give them oxygen". It is also the worst place to be if you drink too much beer. The next day you feel terrible because you get more dehydrated. But La Paz is a very good place to play golf. At this altitude, when you hit a golf ball it goes further!

The coldest place in the world.

Can you imagine living in a place which is four times colder than your freezer? This is Yakutia in Siberia, where in winter it is often -50° or lower. Valeria Usimenko, a housewife, says,

"After a few minutes outside your nose fills with ice. It snows a lot and there is always a lot of ice and snow on top of the houses. The most dangerous time is the spring- when the ice falls it can kill people! The winter is very boring because we can't go out much. A lot of babies are born here in the autumn!"
