The next day you feel terrible because you get more dehydrated. But La Paz is a very good place to play golf. At this altitude, when you hit a golf ball it goes further!

The coldest place in the world.

Can you imagine living in a place which is four times colder than your freezer? This is Yakutia in Siberia, where in winter it is often -50° or lower. Valeria Usimenko, a housewife, says,

"After a few minutes outside your nose fills with ice. It snows a lot and there is always a lot of ice and snow on top of the houses. The most dangerous time is the spring- when the ice falls it can kill people!

The winter is very boring because we can't go out much. A lot of babies are born here in the autumn!"
