Do super note “

¿why did I choose my career?

Veterinary zootechnics

Well I chose the career because

I want to be a veterinarian and

Then I would like to learn more

About veterinariary medicine and

Animal zootechnics and save the

Health of large species better

Because if I go to a streak to work

That is what there are horse cattle pig

Well I live surrounded by animals

And chickens and ducks get sick

Constantly and also because my

Father has a rabbit farm and they

Get sick that they stop eating

And to know waht medicine he is

Given that I would like learn anyway

I also had thought to work for the

Economy and well the good thing

That we have is the rabbits go

Out for my tuition
