4 AN INTERESTING JOB

GROUP WORK What do you think of these jobs?
Give your opinions.

FARMER

I think that being a farmer is an art, since living together, reproducing, caring for and helping animals requires patience and dedication but also to get up early.

BUS DRIVER

This work is very important because those people who do not have a car this is their means of transport, although it must be too tired, hot and harmful

ARCHITECT

Being an architect is one of the most beautiful professions, it seems to me an art to know how to design, although on the other hand it is very tedious and complicated.

HAIRSTYLIST

I think that learning so many techniques to apply to the hair is relaxing because the result will always be satisfactory, I don't think it's boring at all

Casas inusuales

Escanea el artículo. ¿Dónde están los lofts? ¿Dónde construye casas Dan Phillips?

Shusaku Arakawa y Madeline Gins son diseñadores famosos. Sus nueve lofts cerca de Tokio, Japón, son muy coloridos. Los apartamentos son azules, rosas, rojos, amarillos y otros colores brillantes. En el interior, las paredes también son coloridas. Los pisos suben y bajan, y algunas habitaciones son redondas. Las ventanas tienen formas extrañas, por lo que no hay cortinas. Hay pequeñas puertas al exterior. En el interior, no hay armarios. La biblioteca está en el medio de la sala de estar.

A Dan Phillips le gusta ayudar a la gente. Construye casas para artistas y otras personas de bajos ingresos en Huntsville, Texas, en los Estados Unidos. Una casa, la "casa del árbol", está en un gran árbol en el bosque. Tiene ventanas en el piso! También tiene una pequeña cocina. La cama está en el piso de arriba. Hay una estufa de leña de un barco antiguo en la sala de estar. Phillips enseña a la gente a construir casas con materiales reciclados.

B GROUP WORK Talk about these questions.

1. Imagine you are painting your house. What colors do you use? Why?
2. Imagine you are building a house. Do you use new materials or recycled materials? Why?

1.- I really like the rust red color and the tangerine color, I would put those colors because I feel that it makes the house look warm, comfortable and presentable

2.- I use new materials for supporting things and things that do not support weight, but I would use recycled materials because that way I would be saving a few pesos
