DEGREE IN PSYCHOLOGY

SUBJECT: ENGLISH

TEACHER: DR. EDUARDO  
ARREOLA

NAME: PAULINA SÁNCHEZ ORTIZ  
AGE: 8 AÑOS  
CONDITION: LEUKEMIA AND DAWN SYNDROME  
CONDITION: LEUKEMIA AND DAWN SYNDROME

SCHOOLING: 2nd YEAR OF PRIMARY C.A.P.E.P  
CONDITION: DOWN SYNDROME AND LEUKEMIA.

DATE: 01/16/2022

PLACE: COLONIA THE FUTURE

TIME: 6:10 PM

SHE IS A GIRL WHO AT BIRTH HER DEVELOPMENT WAS SO NORMAL THAT YOU DIDN'T NOTICE THE SYNDROME WHICH DEVELOPED AT THREE YEARS OF AGE, ALMOST TOGETHER WITH LEUKEMIA IN HER GROWTH DEVELOPMENTS, MOST OF THEM SPENT IN SOCIAL SECURITY WITH CHEMOTHERAPY ASTA THAT HE MANAGED TO CONTROL THE CANCER WITH THE HELP OF THE SPECIALIST DOCTORS AND HIS PARENTS SAID CANCER, WITH THE SUPPORT OF THE TELETHON HE ALSO MANAGED TO WALK. IN THE DEVELOPMENT OF THE GAME TO THE LUNCH THAT WE HAD, SHE AND I MANAGED TO SEE THAT SHE HAS NO SELF-CONTROL, SHE ALWAYS WANTS TO BE THE CENTER OF ATTENTION IN EVERYTHING, BUT ALSO OBSERVE THAT IF YOU KNOW HOW TO PLAY AND COORDINATE YOUR MOVEMENTS, YOU KNOW HOW A PRESENTATION IS GOING ASTA THE GARNISH IN THE MEALS.

SHE DOESN'T LIKE TO PLAY OTHER GAMES BUT WHAT SHE KNOWS.

SHE IS ALSO A GIRL WHO SHOUTS A LOT, AT THE END OF THE GAME SHE STOPPED AND WENT INTO HER ROOM, SHE DID NOT COME OUT.

PAULINA IS A GIRL WHO ARTICULATES VERY FEW WORDS, SO THE FEW QUESTIONS I ASK HER, SHE WILL ANSWER IN BRAYLE SIGNS OR OTHERS IN HER OWN WORDS.

ALEX: HELLO PAU HOW ARE YOU

PAU: GOOD GUY WITH HIS WORDS  
DO YOU WANT TO PLAY

PAU: I DON'T WANT

ALEX: DO YOU WANT CAKE PAU

ALEX: NO ANSWER THAT MEANS YES

ALEX: DO YOU WANT ME TO PUT YOUR POOL

PAU: YES

CURRENTLY PAULINA HAS UNDERGONE MANY TREATMENTS SHE HAS STRUGGLED SINCE SHE WAS TWO YEARS OLD UNDER CHEMOTHERAPY HER HAIR HAS FALLEN OUT, BUT TO THIS DAY THANKS TO SCIENCE, TO THE GOOD DOCTORS WHO HAVE COMMITTED THEMSELVES TO MEDICINE THEY HAVE ACHIEVED GREAT PROGRESS CURING PAULINA WHO UNTIL NOW REMAINS UNDER THE CARE OF HER PARENTS SO THAT SHE DOES NOT HAVE A RELAPSE.

PAULINA IS THE BRAVEST GIRL I KNOW SHE FACED CHEMOTHERAPY SINCE SHE WAS A BABY WITH THE SUPPORT OF HIS FAMILY, HE WAS ABLE TO OVERCOME ALL OBSTACLES, TAKING INTO ACCOUNT THAT THE DOCTORS ALSO PUT THEIR KNOWLEDGE AND GAVE GOOD TREATMENT. AS A PSYCHOLOGIST I WOULD LIKE TO USE METHODS THAT ENSURE THAT THIS CONDITION OF DOWN SYNDROME IS NOT A LIMITATION FOR PROFESSIONAL DEVELOPMENT AND THEY CAN HAVE A FULL LIFE IN ALL AREAS OF THEIR LIVES AND WHY NOT BE ABLE TO ERADICATE THIS DISEASE SINCE IT IS DIAGNOSED WHILE IN THE MOTHER'S UTERUS.
