# Unusual Homes

Read the article. Where are the lofts? Where does Dan Phillips build houses?

Shosaku Arakawa and Madeline Gins are famous designers. Their nine lofts near Tokyo, Japan, are very colorful. The apartments are blue, pink, red, yellow, and other bright colors. Inside, the walls are colorful, too. The floors go up and down, and some rooms are round. The windows have strange shapes, so there are no curtains. There are small doors to the outside. Inside, there aren't any closets. The bookcase is in the middle of the living room.

Dan Phillips likes to help people. He builds houses for artists and other low-income people in Huntsville, Texas, in the United States. One house, the "tree house," is in a large tree in the forest. It has windows on the floor! It also has a small kitchen. The bed is on the upstairs floor. There is a wood-burning stove from an old ship in the living room. Phillips teaches people how to build houses with recycled materials.
