My infancia

When I was 4 años years old lived with my dad and my mom. and at the age of 5 I was living in the house in my grandparents because my mom worked far away. I was lived with my aunts and my cousins.

My favorite game was encantados. Also my favorite game was baseball.

My best friend was Alma, sarita y norma. We became friends from kindergarten to this day. With they we played the barbís, I remember that we made their little houses and their little clothes.

My favorite food was fried fish and the barbacoa.

I was in the school in Kindergarten "Jaime Nuno".

I was scared of snakes and dogs.

My favorite cartoon was winni pooh, bambi and the princesses.

My best memory was playing with all my cousins all afternoon and the taking shower and sleeping laughing at the game. And when my grandparents were with me.
