Hi, my name is Luz Yareny Gomez Lopez

I am going to tell a little about my history during my children... I remember that when I was 6 years old I began to know how to have a little knowledge because I remember the things that I live during childhood, I grew up with my grandparents and my parents, and my uncles but in reality only lived with my grandparents and my little brother because my mom is a teacher and at that time she works in the jungle area of ocosingo in benemerito Chiapas during my childhood, my favorite was to play at; hide and seek, burning, playing with dolls and among other games but what I liked to do the most was go out and play with my neighbors at that time you were still children one was 6 years old and the other 9 years old, at that time and even having that age of childhood since I remember my favorite food has always been mole with chicken and rice, I liked every one of my mom prepares it.

In preschool I no longer remember the name of name of the school but it was in front of my house a few steps away, the primary school is also called Miguel allende, it is also in front of my house now in these times it is not how I remember it, inside from this I tell that I was scared to go school for fear that they would bother me or do something to me there, this was what scared me the most at that time, after school ever afternoon after doing homework and eating I sat down in the armchair to see my favorite cartoons at that time were the flintstones, tom and jerry, the crazy bird, the looney tunes because the were cartoons that I liked too much.

I don't have every precise memories but my best memory is when every birthday, Christmas my grandmother organized them and it was to live together as a family, now at this age there is nothing of that anymore 5 years ago my grandmother passed away and I got married now I am 23 years old and a 6 years old.
