Tools for Better Shopping

Scan the article. Find the names of popular websites. Do you use any of them for shopping?

1 Do you like to shop online? Like millions of people, you want to find the best things for the best price. There are so many choices that it can be difficult to find the things you need and want. Here's where technology comes in! Popular websites like Facebook and Twitter aren't just for social networking anymore.

3 Another helpful shopping tool is the smartphone. Smartphone users can go into a store, find an item they like, and then type the item number into their smartphone. They can compare prices, read reviews, and make better decisions about their purchase. Many people find a better price online or at another store. People often want to see and touch an item before they buy. They can do just that – and pay a lower price, too.

2 The websites Facebook and Twitter are popular because people can connect to friends and get their most recent news. But people also use these sites as powerful shopping tools. Members can ask about an item and then get opinions from people they trust. Twitterers can also search for news from other users and then find stores nearby that sell the item.

4 But you don't have to be a Facebook or Twitter member or have a smartphone to find a bargain. Websites like Shopzilla compare prices, give reviews, and find stores near you with the best bargains. Google does all these things but also lets you buy items directly through its site. Be a smart shopper. The information you need is at your fingertips!

HERRAMIENTAS PARA UNA MEJOR COMPRA.

Texto 1.

¿Te gusta la tienda en línea? Como millones de personas, deseas encontrar las mejores cosas al mejor precio. Hay tantas opciones que puede ser difícil encontrar las cosas que necesitas y deseas. ¡Aquí es donde entra la tecnología! Los sitios web populares como Facebook y Twitter ya no son solo para las redes sociales.

Texto 2.

Los sitios web Facebook y Twitter son populares porque las personas pueden conectarse con amigos y obtener sus noticias más recientes, pero la gente también usa estos sitios como potentes herramientas de compra. Los miembros pueden preguntar sobre un artículo y obtener la opinión de las personas en las que confían. Los twitters también pueden buscar noticias de otros usuarios y luego encontrar tiendas cercanas que vendan el artículo.

Texto 3.

Otra herramienta de compra útil es el teléfono inteligente, los usuarios de teléfonos inteligentes pueden ir a una tienda encontrar un artículo que les gusta y luego escribir el número de artículo en su teléfono inteligente. Pueden comparar precios, leer reseñas y tomar mejores decisiones sobre su compra. Muchas personas encuentran una mejor imagen en línea o en otra tienda. La gente a menudo quiere ver y tocar un artículo antes de comprarlo. Puede hacer exactamente eso y pagar un precio más bajo también.

Texto 4.

Pero no es necesario ser miembro de Facebook o Twitter o tener un teléfono inteligente para encontrar una ganga. Sitio web como Shopzilla compara precios, reseñas y encuentra tiendas cerca de ti, las mejores ofertas. Google hace todo esto, pero también te permite comprar artículos directamente a través de él, ser un comprador inteligente la información que necesitas está a su alcance!
