# CIENCIA, TECNOLOGÍA, ALTERIDAD Y CONSENSO

Qué son???

**Ciencia:**

Rama del saber humano constituida por el conjunto de conocimientos objetivos y verificables sobre una materia

**Tecnología:**

Es la suma de técnicas, habilidades, métodos y procesos utilizados en la producción de bienes o servicios

**Alteridad:**

Condición o capacidad de ser otro o distinto.

**Consenso:**

Acuerdo o conformidad en algo de todas las personas que pertenecen a una colectividad.

Un ejemplo de Alteridad es el choque de culturas Europeas y Africanas, que son muy distintas en cuanto a sus costumbres, raza, lengua, religión y leyes, Toda vez que la alteridad consiste en respetar la dignidad de este choque cultural, sin transgredir sus derechos culturales uno sobre otro, sino que son alternados.

Ejemplo de Consenso es la unificación de criterio en un solo sentido para impulsar una toma de decisiones que afectarán sus intereses personales y de grupo.

thoughts, as in a palace. The town's poor seem to me often to live the most independent lives of any. May be they are simply great enough to receive without misgiving. Most think that they are above being supported by the town; but it often happens that they are not above supporting themselves by dishonest means. Which should be more disreputable. Cultivate poverty like a garden herb, like sage. Do not trouble yourself much to get new things, whether clothes or friends. Turn the old, return to them. Things do not change, we change. Sell your clothes and keep your thoughts. If I were a boy again, I would practice poverty. However mean your life is, meet it and live it; do not shun it and call it hard names. It is not so bad as you are; it looks poorest when you are richest. The fault-finder will find faults in paradise. Love your life, poor as it is. You may perhaps have some pleasant, thrilling, glorious hours, even in a poorhouse. The setting sun is reflected from the windows of the almshouse as brightly as from the rich man's abode; the snow melts before its door as early in the spring; I do not see but a quiet mind may live as contentedly there, as in a palace. The towns' poor seem to me often to live the most independent lives of any.
