Once upon a time there was a young girl named Ariel, she was friends with a little fish named Flounder and a crab named Sebastian who was like a caretaker for her. Her dad was King Triton and her mom had died. She lived with her sisters in the castle one day. Ariel saw a prince named Erick, she fell in love with him and wanted to have legs so she could go see him, Erick also fell in love with her and decided to look for her through her voice but some stingrays went to see Ariel and told her to go to see Ursula, the bad witch of the sea, she accepted and went to see her and Ursula took her voice away to ask Triton to give her his hook in exchange for her daughter's voice, then Ursula became a princess to be able to make Prince Erick fall in love, Ariel no longer had a voice but in the end she managed to snatch her voice from Ursula again and thus she was able to marry Prince Erick.
