INTRODUCTION

An old pirate was sitting in the bar. He was smoking a pipe and drinking a glass of rum. He was wearing an eye patch and he had a parrot on his shoulder and a wooden leg. Instead of his right hand he had a metal hook.

DEVELOPMENT

A young sailor was chatting with the pirate and he asked him about his adventures at sea, so how did you lose your leg? The young man asked the pirate, 'Arr!' said the pirate, you see, some sharks were circling the ship when I fell overboard, you see, some sharks were circling around the boat when I fell overboard, luckily, my men pulled me back onto the ship before the sharks ate me completely, but one of the sharks got my leg. And wow about the hook on your hand? How did you lose your hand? I was boarding a ship when another sailor cut off my hand with a sword. That is amazing! What a life full of adventures! said the young man, and how about your eye? How did you lose that? I was eating a grapefruit when the juice went in to my eyes, but I don't understand, how did you lose

Conclusion

A pirate always has many adventures
which tell us why they need some parts
of their body and also tell us what they
do in a space they get to have, what the
sea becomes very dangerous and that for
other people they don't look at it like that
