## **My last vacations**

**My last vacations were five days in Tapachula, Chiapas. The truth is that I already knew the city for a long time. I lived there so instead of staying in a hotel, I stayed at the house of some old friends. It was a lot of fun and I wanted to remember a little of my old life. do the same things that I did when I lived there and I have realized that it has changed a lot since it looks more modern, taking advantage of it I went to the city market to buy coconut sweets that I used to eat but I realized that it was more expensive than what I thought, well then we went with all my friends to the Puerto Madero beach, a beach called Playa Linda, the truth is we had a lot of fun later we went back to the city to eat a little, the truth is I ordered good sushi that they had been selling for a long time a lot in that restaurant, after eating we went to a very famous disco in tapachula called playa limbo and when we arrived that day it was very crowded but after a long, long time we managed to get in, I found many friends from the childhood and I was very happy to see them, well the next day we went to the museum with my friends, the truth was that it was very modern than I thought, the truth is that I had a great time that week, remembering old times I will miss my friends a lot I hope to return sometime day..**
