Then when I finally arrived at the carnival with my friends, we went on some rides and drank, after that I went to my house and rested

I don't remember that vacation very well, but the vacation I had in December was complete chaos, misfortunes happened to me, my way of seeing things changed, I had problems but in the end I was fine and to this day I'm still in that process, It was a different vacation , I had to work those days, And only being able to rest on January the 1st
