

What did you do on your vacation?

During my vacation in Huatulco, I visited many of the beautiful bays found in the area. First, I explored the Bay of Santa Cruz, where I was able to relax on the white sand beach and enjoy the crystal clear water. Afterwards, I took a boat to explore Chahué Bay, where I snorkelled and saw a wide variety of marine life.

Another of my favorite bays was Tangolunda Bay, where I was able to enjoy a full day of sun and sea. I also visited Cacaluta Bay, which is one of the most remote and calm bays. Here I was able to swim in the turquoise water and enjoy the beach without many people around.

During my stay in Huatulco, I also visited the San Agustín Bay, which is known for its long and beautiful beach. Here I was able to take a boat ride and admire the panoramic view from the sea.

In general, my vacation in Huatulco was wonderful. I had the opportunity to visit the most beautiful bays in the area, swim in the sea, sunbathe and enjoy the natural beauty of this amazing place. I will definitely be back in the future to explore more of what Huatulco has to offer.
