"PASADO Simple"

When I was a child, I remember that we went on vacation with my family, first we went to Agua Azul, then to the ruins of Palenque. The weather was hot, the sky was clear and the landscape was beautiful.

I had a great time. What I liked the most were the figures that were painted in the ruins, I got very tired of climbing the stairs but it was worth doing so I bought a hat and a hat. Wooden toy I wanted to buy more things but I didn't hesitate because the hand:crafts they sold were great, I hope very soon to go that place again.
