My Childhood

When i was a child, I was very attached to my maternal grandparents, I loved being close to them and when they got paid I accompanied them and when I left there my grandfather would always buy me a sweet, Every time my grandmother went to a prayer I accompanied her, I played a lot with my cousins, but with a cousin who is from San Cristóbal, my other cousin and I fought to be with her, Igaul played a lot with a neighbor, we used to play wrestling with my brother, I remember playing around like that and I took out a tooth, With my older brother we accompanied my mother at work and we began to play, Since I was little I have liked animals and since then I have had many animals
