My childhood

Scribe

When I was a child I liked to play with my toys, my parents take me to play in an amusement park every weekend later we went for ice cream after I finished playing. I was very afraid of the dark and my mother always accompanied me when the lights in the corridor were off, my brothers liked to make fun of me when we watch horror movies because they knew I was scared of them, what I liked most about my childhood were Christmas gifts and three kings day. I really liked my childhood, because it was very fun and adorable.
