My house dream

I would like to have a big and spacious house.

The house would have many windows, to see the beautiful landscape that would be seen. Inside the house you would have to have several rooms: a kitchen, a living room, a dining room, a study room and a guest room.

The house would also have a garden with lots of flowers and trees because I really like flowers. It would also have a pool for the summer and a garage where you can store the cars.

In the dining room, I would like there to be windows that overlook the pool and the garden, and three sofas that

occupy the entire huge dining room that it would have. There would be a spiral staircase leading upstairs.

The living room would be very large with a large television and three huge sofas. My room would be spacious with a bathroom included and a double bed.
