My grandmother's house is very beautiful. It has three bedrooms, one bathroom, a big living room and a beautiful colonial kitchen.

There are many details that make her house so beautiful. There are bricked archways and warm brown colors on the walls.

The furniture looks antique since my grandmother bought it many years ago when she got married. There is a big dining table and china plates my grandmother keeps in a big cupboard for family reunions. In the three bedrooms, there are beds and wardrobes that still have some of my grandmother's children's clothes. There is always a family reunion every Sunday and I really enjoy spending time with everyone.
