I had a lot of fun on my last vacation! I was two weeks old and I went to help my dad with the farm work. After that I went swimming with my friends in the Grijalva river, I swamed and raned a lot on the beach. I went to visited my family in another town called San Francisco where the graves of my grandparents are. Since I still had time, I planned a trip to Mexico City in the company of my Christian nephew! We went by bus because I am afraid of traveling by plane, we went to Puebla for a moment, it was very entertaining and interesting. Then we headed to the impressive Mexico City, we descended in the Central del Norte. When I was there I visited several places, I loved the trip, I hope to repeat it later! I really enjoyed walking through the streets of the city, it was very nice to see the city and the people of Mexico City.
