¿What did you do on your holidays?

On my vacation i didn't do much, i went out with my family for a walk, i watched videos on youtube, series or helped my parents in whatever way i could. My breakfast time was at 10 in the morning , my lunch at 3 in the afternoon and my dinner. At 9 at night, it was all very normal, what i liked the most is going out with all my relatives and enjoying a Little with everyone, it was something very nice, sometimes i went out with the car to go around the town or went to the park, i exercised my body a Little, i learned a Little more to cook, i helped with household things, i took care of my Little sister, i went to the doctor for complications i had with my health, and for that reason i went for a walk until i met new dog friends who always followed me and liked that i was caressing them, and when i came back i studied a Little to be more prepared, i listened to music to relax, the whole family watched tv and finished we all went to sleep and that's where our day ended.
