What did I do on my vacation?

During my Christmas holidays I worked in a shoe store belonging to my uncles, I bought clothes and went out with some friends from high school, we also had Christmas dinner with my family and they gave me a sweater that I really like, I went to leave my godmother and her husband to the airport, or because they went to live in another country, I went to celebrate a friend's birthday and had a few drinks.

I wanted to join a soccer team again, but I couldn't because the calls were closed while I was out of town, so I exercised at home. Buy a frappe, drink it, buy more hot wheels cars. I built a shelf and put the hot wheels on it.

I renewed my contract at work and began to investigate about hormone replacement therapy and dental treatment

I also wanted to start a lawsuit for the change of name and gender identity, but for the season I did not achieve much, so I prepared myself to start classes and in my formal job.
