What did you do on your vacation?

During my vacation I was able to do my activities more calmly, I went to a business trip for two days with my cousin and I had a great time, when I returned from the trip I cooked with my mom and the next day my friends called me to go see a football game, and I played after the game, for a week I went with my best friend in the morning to the gym and then we just walked to my sister's work to go together to our house. At the night my uncles arrived to my home and we celebrated with my family and the next day we went to eat in an outdoor field, where we all had fun playing games, we planted a little tree. We met again with my family to organize everything for the New Year night and everything was ready so quickly, so we have finished a day before, washed the used things after. The very last day of my vacations, we start the new year night with family and with more dreams.
