what i did on my vacation was...

On my last vacation we went out with my family. We visited San Cristobal, we visited many places within the town. We went to the Rancho Nuevo caves, we had a lot of fun, we also visited the Santo Domingo temple, without a doubt it was a wonderful experience and even more so with my family. I had a lot of fun and laughed a lot, we also visited relatives that we hadn't seen for a long time, I went back to see my cousins with whom I played as a child, we remembered beautiful moments of our childhood again. I SLEPT WITH MY GRANDMOTHER, BUT BEFORE I DRINK THE CHOCOLATE THAT SHE PREPARED, SHE TAUGHT ME HOW TO COOK, THE NEXT DAY I WOKE UP VERY HAPPY, I WRITTEN A MESSAGE TO MY DAD TELLING HIM WE MISSED HIM, FOR BREAKFAST I MADE EGGS AND BACON, I PUT THE TABLE, I DRINK COFFEE WITH MY COUSINS. I CUT MY GRANDMOTHER'S FLOWERS AND KEEP THEM IN THE LIVING ROOM WHERE I FIND MY LITTLE SISTER WITH A BUTTERFLY IN HER HANDS.

We visited my maternal grandmother, she spoiled us a lot, we had a wonderful time.

We visited some pools, I swam more than I usually used to, I ate too much after we played with my cousins and their friends, we had a lot of fun. The next day I went shopping with my cousins, I tried the marquesitas for the first time, we passed near a karaoke and I sang without realizing it just like my cousins. We went to a cafeteria and had a frappe and ate a crepe, at the end of the day I met a friend who was also visiting with her relatives, I rode a bicycle, something that I had not practiced for a long time. At night we played some games together. I drew, cut and taught my younger cousins, then my grandmother told us about stories from her childhood. I read some stories to my cousins and when I saw they fell asleep I closed the door of the room and turned off the light.

It's time to say goodbye to everyone

I thought it would be a normal vacation but it was incredible. I felt very nice seeing everyone together. these were my last vacations.
