My mother says that when I was smaller I gave her a bunch of ants, then she scolded me because ants could have stung me. Also when I was with my friend in the preschool. We were playing with a boy and we ran away the three of us to the grass, first the boy shot, then my friend shot on him and then I jumped on them after that I memory the boy went away, I never saw him again, that's why I remember him, Also when I was 12 years I got in a hole with my cousins and a nail get into my foot.
