I have only one cousin, therefore she is the favorite, her name is Patricia Candelaria, and September 14, 1824 Chiapas annexed to Mexico October 16, 1854.

The sixteenth of October on thousand eight hundred and fifty - four.

Westland Row, was born in Ireland on October 16, 1854.

When I finish my degree, my greatest desire is to work in what I am studying, nursing and I am going to work in a hospital, serving many people, I need to gain experience, it will be difficult to achieve. It is not impossible. It is my dream, that is why I am studying that career, I like it and I am passionate about it. It's very interesting, especially

Because I am going to perform human acts where I'd like to help many people. I have that goal, so I am going to reach it.

From a very young age. I got the idea of being a doctor since when they bought me toys, I chose medical instruments and played nurse with my brothers. That's why I feel that I am studying it is something very nice because choosing I think because it's a vocation because a nursing and have a not ante it is in a city since we can also be in rural, areas where people experience many deprivations and there we get involved in people's lives with the intention of being able to help them, so we must be aware that I'm going to work with enthusiasm and dedication because this profession deserves all the sacrifice in the world and everything in favor of others.
