Partial: 2nd

Matter name: English

Professor's name: José Jesús Hernández

Bachelor's name: Nursing

Four -month: 3rd

Does Brazil's carnival really make you vibrate?

In my opinion, one of the most striking festivals and that makes me want gather on a certain specific date

To appreciate what this tradition has to offer. It is considered one of the shows declared as Intangible Heritage of Humanity according to UNESCO. This has a reason for being.

First of all, the Rio de Janeiro Carnival is characterized by its dazzling content, a mixture of dances, among the well-known "Samba"; The appreciation of dancers and dancers in extravagant costumes related to the topics that interpret. Mainly driven on, behind or in front of an "allegorical car" which is characterized in different ways; Among some examples is that of the representative animals of their jungle, until part of their Brazilian beliefs or customs. In my opinion, it is something really striking and beautiful to witness; Basically we can go to enjoy a diverse show in the company of friends, family or couple; Or, to relate to people totally new that is a resident of Brazil or with the thousands of foreigners who arrive like you or I enjoy it.

By instances we know that this has a date of completion every year; The Carnival within the present year 2023 was held in February 17 to 25 more than one of the week!

Finally, we can delimit that it is a great plan to visit it once and be spectators of what Brazil is able to show us with this tradition. I personally recommend that they be transported by plane since within everything it is more accessible or practical with respect to the other means of transport; Of course, depending from where your initial travel point is, in my case it would be from Mexico. It had been mentioned that it can be something familiar, however it is not a highly recommended environment for minors, so if there is no inconvenience that hinders together with that recommendation, it will be no problem going with your whole family if I You want, in my case, it will be!

The next dates of the year 2024 will be in February 9 or 10, depending on tickets, you probably buy those of February 10 for greater security. I can say that I plan to have fun and enjoy the show with me family, it really excites me!

The Brazilian carnival in Rio de Janeiro is totally something very iconic from the place, if you ever arrive as a tourist, you should not hesitate to Experience this great "samba" party.

The closest holiday to this we have within our culture, more specific within Villahermosa, Tabasco. They are the parade of allegorical cars, which is really very similar to what happens in Brazil, with the badge that it is located in the context for the presentation of the ambassadors of each municipality of the state, which are applied to dispute the known title as "La Flor de Tabasco" based on the votes given by popularity by the people themselves; This being the previous one to start the fair where the participants are known, in addition to the winner; To finally be able to enjoy mechanical games, food and of course, the characteristic Tabasco atmosphere.
