DESCRIPTION OF MY TOWN

My town is called **Nuevo Pacayal**. It is a small town but with too much flora and fauna. Its streets are dirt and others are paved. The mountains look very close, we also have a river nearby, and when it is summer we always go as a family to enjoy nature. We have a health center, a public field, a soccer field, in addition to having an auditorium where meetings of the same town are held. We have three school institutions, such as preschool, primary, secondary and a Cobach campus. In addition to the schools, there is also a bridge that takes us to the other side of the river, since there is also a houses there and some gentlemen have land. The gentlemen here usually harvest corn, beans and coffee, although there are also fruit trees such as orange, tangerine, mango, papaya, lemon and other fruits, although some people still harvest avocado. Like anywhere, people have cats, dogs, roosters, chickens, ducks and more, although because the mountains are close, some people say that they have found deer, wild cats and little lions. The town has a hot climate that when it is summer the heat is really too strong, although sometimes it still rains heavily and in the same way when it is winter it is cold and very windy.
