DESCRIBING ME AND MY FAMILY.

Hello, my name is Yarix Karina, I am 21 years old and I live in a neighborhood called Nuevo Pacayal. I really like horses, roosters, cows and dogs, since I was little I have been very fond of animals, although my favorite animal is really turtles. I don't play any sport because I always end up hitting myself, but learning to play basketball does catch my attention.

My family is made up of 5 members, my dad, my mom and my two sisters, but currently my grandfather and my nephew live in my house.

My dad's name is Isaias, he works in the fields, although for now he is at a distance we respect him because he is very angry and strict with us, but thanks to that we have managed to have a profession and also because of him I began to like horses and roosters.

My mom's name is Martha, she is a housewife and unlike my dad, she is more affectionate, more understandable and listens to us, when we want or need something she is the one we approach.

My sisters are Leydi and Lucelvi, they are nurses. I am the smallest of the three. My sisters are white skin color and I am the only one who is brunette. We both have different tastes.

My grandfather's name is Ramiro, he lives with us and my nephew's name is Isaias, he also lives with us because my mother takes care of him.

I consider myself a very sociable person, who greatly appreciates the little things that people do for me, I try to do the minimum that is within my reach when someone needs my help. I always try to do my best in my studies to be a great nurse in the future.
