Nutrition and its relationship with other sciences

1 BIOLOGY

Nutrition and biology are related from the point of view of molecular biology, biochemistry, and genetics.

2 AGRICULTURE

Nutrition is a key factor for the development of agriculture, as it influences the quality and yield of crops.

3 BIOCHEMISTRY

Nutrition and biochemistry are related, as biochemistry is the application that arises in nutrition to understand the processes by which the body uses the different components of food (nutrients).

4 MEDICINE

Teaching nutrition in medical school is important for the prevention of diet-related risk factors, such as overweight and obesity

5 MATH

Mathematics is a useful tool for nutrition, as it allows you to calculate the amount of nutrients and calories that each person needs according to their characteristics and habits.
