Describing my Town

My town is made up of buildings like clothing stores like Coopel, stores that sell household appliances. You also find secondary schools such as the state secondary school, the primary school, among others. In the municipality is the center for industrial technological studies and services 136. In the center of the town is the central park where many people come with their families. In the center there are many stalls, places to eat. The fauna is diversely established, with many birds of different species in the central park, some of them are pigeons, the cinnamon dove, the black-throated fruiteater or the black-throated euphonia, the so-called common buzzard. In some small huts on the border of Comalapa there are several species of insects such as the impeccable ladybug, the giant crab spider, the yellow butterfly, also in various parts there is the Mediterranean fly or scientific name *ceratitis capitata*, the rattlesnake, the chicatana ant. In flora we have flowers called mantle of Christ, evil eye the pink trumpet flower. Fruit trees such as chico sapote, guanavana, mango trees, guasima fruits, avocado trees, Persian lemon, mandarin lemon, papaya fruit, banana plantations, coconut palm trees, menbrillo trees, star fruit trees and a variety of fruits, species on the Comalapa Chiapas border...
