My name is Eduardo, I am from the border municipality of Comalapa, currently residing in the neighborhood of Huixnayal, to get to my home we cross the stream, from there we arrive at the Guanacaste ranch, it is there where full of joy I wake up every morning listening to the song from the birds, the rich morning wind, in my house we find the garden full of beautiful flowers and roses, then we find the house in which there is a very large corridor, it is there next to the living room, in it is the sofa, the television and the rack. After this, the kitchen has the refrigerators, the stove, the dining room, the stove, the wood oven, then follows the laundry area where the washing machines, the bathroom, the shower are, to one side are the bedrooms, the first. bedroom is mine, in it I have my bed, my sofa, computer, clothes rack, my closet, television, then there is my mother's bedroom in which is her bed, closet, dresser, television, then there is the view bedroom, a On the side, there is the chicken coop where the chickens, the ducks, the pigeons, the peacock are, and we have a small garden. After this garage for my motorcycle and my car. That is my humble home.
