Make a description of your TOWN, in terms of the flora, fauna and buildings that exist there.

Well, this is a description end the characteristic of the town end the building end the fauna and flora where I live.

The description of mi town is in the little hill the streets are pavement, there are tracks crossing for the town the people is very kind in the down town we have a domo ail the evening the young end the old people to play racquetball.

Every year's crop coffee in the cut season many people games from Guatemala country to work

Abietite the building we have house make with wood with Lamine cool end others house are made of black withe a white cover, painting of many colors

Above it the fauna in the forest lives dears, puma, phanters, armadillos, tepescuintles,

Anda solos, map aches etc. some animals are in extinction danger for the discrimination hunt every day we hear the beautiful song of the birds

Above the flora we have many species or the trees like

Pines, robles, cedros, salvia, encinos, cipres excite some little rivers crossing between the forest.
