*Cuatrimestre: 4*

*it represents a wide variety, from the coast to the high parts of the southern sierra madre, the jungles in the north of the state predominante, reaching their máximo representation. Next are the coniferous and oak forest and the humid mountain forest as well as the cualtivated grasslands. Agriculture occupies 39% of the entity territor, in my Little town there is a municipal park, a theater, a hospital, a university a super market and sport unit, what i have seen here in my town are snakes of almost all species, bats, butterfilies, birds, oposums, iguanas, fish, chicken, turkeys.*
