## MY TOWN

Hello, my name is Itzel, I am from El Porta, my town is very beautiful and a little big.

It is surrounded by mountains, there is a mountain called Babilon and they call it that because it is a mountain. There are many Green tres and the weather it's warm.

When it is rainy time there is a stream and children and Young people bathe and dive off the bridge.

There are three schools, there are also seven chuerches, a park, a bus station, there are many shops.

There is a municipal agency, there is an ejidal comissioner and a municipal agent and many pólice officers.

There is a many road that is paved and three are drit roads. There are two main roads that are paved and the rest of the town is drit.

The afternoons are very quiet, the children like to play bicycles in the park.

The people here are very kind, they are also very united and they like to support people When someone is sick, we are very happy and we make fun of ourselves. Even though they are also gossips and like to fight.

Most of the inhabitants are famers, the women are housewives.

After many years of the political conflict in my town and having divided the town again, they will unite and this is a reason for celebration and joy among the inhabitants. This coming November 20, the Mexican Revolution and the unity of the town will be celebrated and for that reason they are going to kill two cows so that the people can live together.

I love you my town.
