MY TOWN

Hi, my name is Israel de Jesus Maldonado Tomas, I am 21th years old and live in a big town and beautiful.

The name of my town is Pacayal, it is a warm and pleasant territory

Pacayal has a soccer field, a health center and a park where many people come to enjoy the warm and fresh climate.

My town is subdivided into ten neighborhoods and they are truly beautiful, we have many viewpoints to appreciate the beauty of Pacayal from the heights.

We have a waterhole where in the summers many people come to cool off on hot days.

but also on rainy days these rivers grow so high that rivers appear in random places.

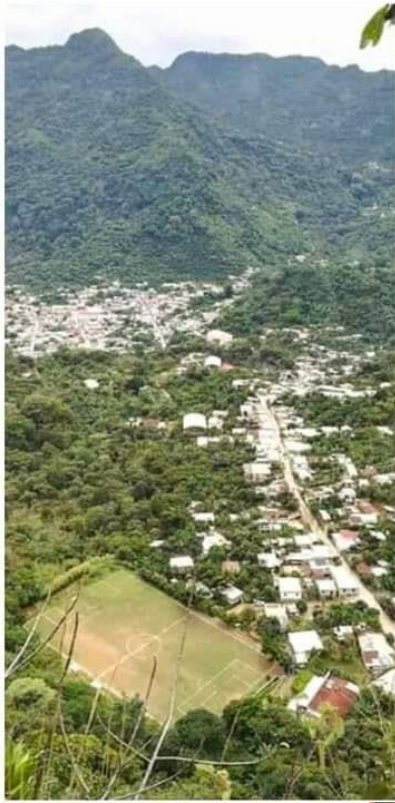

Although Pacayal is a small town, it is also full of culture, those of us who live there realize that it is a wonderful place to live with an incredible view both day and night.

Without a doubt there is a lot to mention about Pacayal but we would miss a lot, so I will just mention a small part of my beautiful town.

My town has a technical secondary school and a Cobach (high school), it has many churches but most of them are attended by people in the Catholic church and in addition to that we have a market on Sundays where people come to buy what they need to eat. .

And the last but not least important thing about this town, it has a culture where on Easter days all the people dress up with suits and scarves and go running and throw lots of sweets to the spectators.

In conclusion, Pacayal is a magical town surrounded by good people and beautiful places where we can appreciate nature and I hope you liked it and we look forward to your visit to this town.
