My town is Chicomuselo.

My town is big and beautiful.

There are big mountains and two rivers surround it.

It has large lakes and a waterfall on the outskirts.

There are many ranches on the banks, the roads are long and you can enjoy a beautiful view.

My house is near a stream, between a mountain.

The men are dedicated to the cultivation of corn, beans, and peanuts.

To grow the crops you pass over large bridges and prairie.

In the forest there are many animals, such as rabbits, squirrels, deer, snakes.

The climate is very cool in summer and very cold in winter.

The water of the stream and the rivers are always cold, the trees are always green.

In my town there is a large church on front of the park, there are also many.

The school is close to a supermarket where people always serve you with kindness.

I LOVE MY TOWN.
